

## Services

### Installation - Design - Fabrication

In-House illuminated sign fabrication and installation: Need a sign made and installed? We fabricate our signs with quality materials and workmanship. Our in-house sign installers ensure your sign is installed in accordance with our high standards.

- Channel Letters
- Cabinet Signs
- Monument Signs
- Pole Signs
- High Rise
- Electronic Message Boards
- RGB Digital Display systems

Installation Services for national accounts:

We manage your project with the skill and professionalism it requires and deserves, which is why some of the most respected names in the industry put their trust in San Diego Electric Sign, Inc. for installation services.

### Maintenance contracts and service:

We offer competitive service contracts for projects that require ongoing and regular maintenance, as well as full sign service for your everyday needs. Individual service requests are handled on a time and materials basis, so you never pay more than you should.

Subcontractor Services: Our skilled project managers carry your installation and/or fabrication through permit acquisition, project coordination, and installation by our team of professional installation technicians.
